MEDARAMETLA LOKESH

15-257, valayanandapuram, gudur, nellore dst.

(+91)9445920681 ⋄ lokeshbittu1997@gmail.com

CARRIER OBJECTIVE

Being an enthusiast of artificial intelligence and data science, i would like to explore more in that field which can help in people for their well being.

EDUCATION

Vellore Institute of Technology, vellore   *Jun 2015 - Jun 2019*
B.tech   Overall Percentage: 78.6
School of Computer Science.

Narayana co-spark , hyderabad   *July 2013 - May 2015*
MPC,Telangana Board.   Overall Percentage: 96.2

Narayana english medium school, Gudur   *till may'13*
High School Education, Andra pradesh Board.   Overall Percentage:95

PROJECTS

Stock Prediction Using RNN and LSTM   *Machine learning*
In this project we have predicted stock exhange prices using least short term memory and RNN.Using this we can be able to see the rate and can be able to get the latest prices and the predict the most accurate stock exchanges.

Temperature monitoring and Pulse checker   *Internet of Things*
With the help of the IOT models we made a project that helps to know the temperature of the body and pulse and thereby sends a message to our phone so that we can be cautious.

Student Report   *Cognizant*
During my tenure in cognizant as a intern,i have made a project on student report which takes a huge chunk of data and stores in the datawarehouse using the BI tools.

STRENGTHS & SKILLS

Subjective Knowledge:	Machine learning,Artificial Intelligence,IoT,Datawarehousing, stock marketing and trading.
Software & Tools:	C,C++,Python,R,informatica,Sql,plSql,linux,WebDesigning Latex,Ms office,PowerBI,Tensorflow,NLP

WORK EXPERIENCE

Cognizant, Bengalore   Feb'02 - May'10
Data warehouse Engineer

· On site internship in MNC during my last semester of my college,did project on data warehousing using BI tools and learned many things there.

Eruvaka Technologies, Vijayawada   Sep'05 - october'31

Data Scientist - Intern

· Made some of the fascinating predicting models for the automatic shrimp feeding. Had a great time spending in this company. While working on the feeding models we have overcome some of the problems and built a strong model

EXTRA-CIRRUCULAR

Participated in several tournaments in School level

Won Runners cup in Inter school competition.

Member in Youth red cross,VIT-Vellore.

Participating in online coding competitions
